

2019 Impact Report

[LOTUSFEST.ORG](https://lotusfest.org)

Every picture tells a story ...

"Always a joy to engage our students with musicians from other cultures. Lotus has a magical way of illustrating that music is indeed a universal language." - Maggie Olivo, music teacher, Fairview Elementary

"We may not have been able to understand the language they were singing in, but it was remarkable all the same."
- Stella Ham, student, Childs Elementary

"Having music and cultural/arts events of different kinds here gives people, especially youth, a chance to experience something different, that they likely would not seek out themselves. It is of HUGE benefit that our kids and community members can have the experience of something that inspires them, and gives them an experience of joy, beauty, and creative expression. We hope that performances like these spark a sense of curiosity, adventure and courage within." - Kara Schmidt, community partner, Black Vulture Project (Paoli)
