Archaeopteryx (pronounced ark-ee-op-ter-rix) will be the first ever major art installation at Arts Village. It is a kinetic light sculpture that debuted at Burning Man Festival 2019, designed by Wevolve Labs to bring people together. Wevolve Labs is a collective founded in 2018 by Bloomington native Nicholas Paul DeBruyne.

While exploring this masterpiece, enjoy Arts Village's other activities. Make your very own articulated puppet and put on a show in the mini puppet theater. Join **Women Writing for (a) Change** to create a story cube and get your inspiration for your next best-seller. Decorate and play pianos from the **Bloomington Piano Project**. Show off your skills with our hula hoops, sidewalk chalk, and large bubble wands!

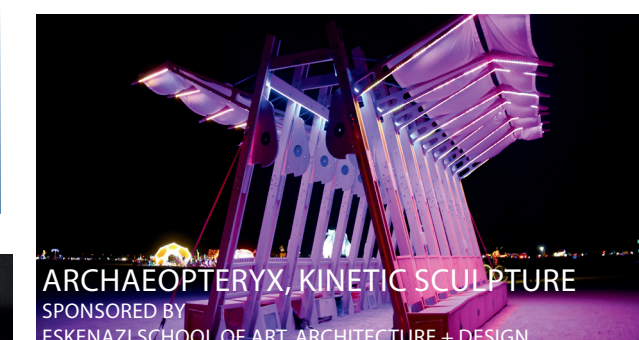

FRIDAY PERFORMANCE • 8:30 P.M.

SATURDAY PARADE • 8:30 P.M.

Come to the Arts Village to grab a flag or a mask and join **Lemon Bucket Orchestra** for the return of the Lotus Festival Parade! The Orkestra has Ukrainian roots and influences; the parade will also be a time to show support for Ukraine.

SUPPORT UKRAINE

In putting together the 2022 Lotus Festival lineup, Lotus voices its support for the people of Ukraine and stands against the war currently being waged against the Ukrainian people. Artists such as **Puuluup, Lemon Bucket Orkestra, Blato Zlato, and Flying Balkan Laikas** represent the rich cultural traditions that spring from Eastern Europe, reminding us that music, art, and culture create a bridge for understanding and appreciation of diversity. Variations of the colors of the Ukrainian flag can be seen throughout our promotional materials and in our Festival T-shirt and pin designs. There will also be opportunities to show support for Ukraine and the Ukrainian people at the festival. For two organizations doing amazing work on behalf of the Ukrainian people, see **Razom for Ukraine** and **Vostok SOS**.
